

PORTRAIT OF A NEVADA LEARNER

A collective vision of the mindsets and skills that bring academic knowledge to life

Core academic knowledge is the foundation from which students can apply durable skills, enabling them to build a life, a home, and a future for themselves, their families, and their communities. With the rapid pace of technological change in our post-COVID world, it is more important than ever to center our educational approach around shared human values and a clear sense of purpose. By asking thoughtful questions and encouraging students to reflect on what they are learning and why, we can empower them to create their OWN portraits of who they are and who they aspire to be. This approach fosters joy, creativity, and authenticity in the process and expressions of learning. Importantly, it also helps learners develop the self-awareness and resilience necessary to thrive in today's world.

How might we create learning relationships, experiences, and environments that put these shared values into practice? >>>
